Arrangements have been made with the Naval Photographic Center for LCDR Neasham or CDR Forsberg to "fly" this photography using a Naval aircraft. The film is processed by CIA facilities and delivered to the Central Branch for analysis. The Central Branch will produce mosaics, overlays, and reports as needed by the requesters. Interests are primarily in construction progress and nearby activity which might represent an attempt in compromising security of the building. A project initiation memo will be submitted with each renewal of the request.
